Duration : 120 minutes

Max. Marks: 200

➤ **INSTRUCTIONS :**

- Attempt all 50 questions. There are **three sections** in this question paper. Section 1 comprises of 10 Objective questions in Physics & Chemistry, Section 2 comprises of 20 Objective questions in Biology and Section 3 comprises of 20 Objective questions based on Logical Reasoning.
- Each Objective question has four choices and only one choice is correct.
- Darken the bubble completely on the OMR bubble sheet to indicate the correct answer.
- Darkening more than one bubble is not allowed & will be treated as incorrect.
- **The marking scheme for all questions is** : Every correct answer will be given 4 marks and every incorrect answer will lead to a deduction of 1 mark. Every unattempted answer will fetch zero marks. Thus, there is negative marking for Objective questions
- Most questions in Section 1 are from your syllabi in Std. X.
- Be relaxed and in the present moment while attempting the Test.
- Do not copy or use any aids like calculators, mobile phones or any other electronic devices. Students found doing so will be disqualified.
